

Technical Information: 1590WP ALUMINIUM DIE CAST BOX

OVERVIEW

- Watertight die-cast enclosure.
- Rugged, die-cast aluminium alloy (tough – yet easy to machine), electronic instrument enclosure.
- Lap joint construction provides protection against access of dust and splashing water. Also provides for improved EMI/RFI shielding.
- Unpainted version is vibra finished for a smooth surface with no sharp edges.
- Satin black painted version is painted with tough polyester powder paint for a lasting finish, even after machining. Black screws are included to enhance appearance.
- Includes screws threaded into factory-tapped holes. Screw type and quantity vary. See details below or in drawings.
- Water-tight versions are designed to meet IP65.
- Low side wall draft angle (2 degrees or less) for easy P.C. board mounting.
