

# Technical Information: SMALL MULTIPURPOSE BOXES WITH LIDS

## OVERVIEW

These boxes are moulded in ABS to give maximum strength and to produce a professional looking product which can be easily punched or drilled for individual requirements. They are available in black, white or light grey as standard with other RAL colours available on request.

The T1-26, HBT3 and HBT4 have an overall matt finish, whereas the T2, T3 and T4 have a polished finish. The lids are retained by 4 countersunk self-tapping screws.

PRODUCT CODE	A (MM)	B (MM)	C (MM)	NOMINAL WALL THICKNESS
T1-26	40	28	18	1.0
HBT3	73.5	51	25.5	1.75
